

MIDES in Scientific Publications

Springer Publications, 18 May 2020:

“Supporting Operational Decisions on Desalination Plants from Process Modelling & Simulation to Monitoring & Automated Control with Machine Learning”

<http://midesh2020.eu/2020/05/20/mides-published-in-springer/>

Frontiers in Energy Research, 5 December 2019:

“Comparative Performance of Microbial Desalination Cells Using Air Diffusion and Liquid Cathode Reactions: Study of Salt Removal & Desalination Efficiency

<https://www.frontiersin.org/articles/10.3389/fenrg.2019.00135/full>

Journal of Membrane Science, January 2019:

“Volatile fatty acids concentration in real wastewater by forward osmosis”

http://midesh2020.eu/wp-content/uploads/2019/01/VFA-concentration-in-real-wastewater-by-FO_JMS_2019.pdf

IWA Publishing – Water and Technology, June 2018:

“Membrane-based pretreatment to mitigate variations in desalination plants”

<https://iwaponline.com/wst/article/77/12/2858/40847/Membrane-based-pretreatment-to-mitigate-variations>
